THE PRINTING BUREAU.

DAMAGING EVIDENCE GIVEN TO THE COMMITTEE.

Twenty Tons of Unused Type—The Dominion Company's Contribution to Chapleau's Election Fund—Sir John Was Told of Senecal's Doings.

Special to the TIMES.]

OTTAWA, Sept. 16.—In P. A. Crossby's evidence relating to the Printing Bureau yesterday he said he had several rows with Senecal over paying him more money, and after he gave him the last cheque he got no more orders from Senecal. At that time Senecal wanted about $5000 altogether, and he (Crossby) maintained that he got too much.

McMahon, the deputy superintendent, who is now acting as superintendent of the bureau, said that 40,000 pounds of type was stored away in an attic and never used. The linotype machines had never so far done any practical work. There were four of them, which cost $3500.

The only other witness examined was T. Berthiaume, manager of La Presse, who gave evidence in regard to the deal with the New England Paper Company, whereby certain profits obtained on government contracts given to this firm were to pay the indebtedness for paper supplied to La Presse. Berthiaume explained that he bought type for $8000 from Messrs. Chapleau and Ouimet, and agreed to pay $750 per year for publishing the paper, with the privilege of buying out in two years. An account with the New England Paper Co. for $1000 was paid by money he secured from the Canada Paper Co., to which firm he transferred his purchases for paper. He gave a note for this amount to the Canada Paper Co., which was endorsed by Chapleau. Witness was not certain whether the order for paper for the bureau given by Mr. Chapleau to the New England Paper Co. was given before or after the agreement between himself and Mr. Young of that company, that a certain amount of the profits from this contract was to go to La Presse. He said that La Presse was to-day worth $70,000, yet he only paid $5000 down when obtaining control of it. The profits last year were $13,000.

Alderman Cox, president of the Ottawa Conservative Association, said that about a year ago he brought Senecal's doings in regard to commissions to the notice of Sir John Macdonald. He called at the residence of Sir John then and told him what he had heard in regard to Senecal and Bronskill.

Senator John Jones Ross has been appointed Speaker of the Senate, to succeed Senator Lacoste, who has been appointed Chief Justice of the Quebec Court of Appeal.

BALMACEDA'S ESCAPE.

A Report That He Was Smuggled Aboard a U. S. War Vessel.

NEW YORK, Sept. 15.—A Herald's special cable from Valparaiso, dated September 14, says: Balmaceda has escaped from the clutches of his enemies, and is now safe on the high seas under the protection of the United States flag. All the time the soldiers of the junta were guarding the passes of the Andes to prevent his getting into the Argentine Republic and the police of the new provisional government were searching the monasteries in and around Santiago for the fugitive ex-president, he was in hiding in this city. Here he was more liable to escape detection than anywhere else, for his opponents never dreamed he would dare to return to Valparaiso, when they were assured he had fled from it. Balmaceda chose his refuge wisely, for he was enabled to throw himself upon the mercy of Admiral Brown, of the United States flagship San Francisco, and beg to be saved from the revenge he feared from his foes. Admiral Brown did what any other foreign admiral would have done under similar circumstances. He stepped in to save possibly human life. In the name of humanity he consented to afford Balmaceda the shelter of his ship and the protection of the stars and stripes. To effect the ex-president's escape it was decided to have Balmaceda disguise himself as a drunken United States sailor, clothing being sent ashore in a market boat last night by the order of Admiral Brown. It was smuggled by one of Balmaceda's faithful adherents into the house where the ex-president was in hiding. He carefully donned it, and after a close inspection of his new and strange attire to see there was nothing about the get-up which would arouse suspicion, he stole out by the rear entrance into the street. Nightfall favored his disguise, and he had studied his part so well that he feigned a drunken tar to perfection. In his way toward the water front he rolled by many men who would have been glad to have had a chance to seize and turn him over to the police authorities. In time he reached the spot in the harbor arranged upon. There he found a boat awaiting him. It was manned by sturdy United States man-of-war's men. Balmaceda, still maintaining his disguise, made a final drunken struggle and fell into the boat. It pushed off at once, and in a short time the ex-president, all signs of inebriety at an end, climbed swiftly up the ropes and was saved. He went at once to one of the cabins aft of the San Francisco and did not again show himself above. This part of the vessel was reserved solely for its prominent guest. Nobody was allowed to visit the cabin. The officers of the San Francisco were questioned about the matter but refused to discuss it. The San Francisco left Valparaiso last evening for Callao. Thence it will sail for California. Balmaceda may elect to land at Callao, where many of his leading partisans have already been taken by the foreign ships on board of which they sought refuge after the fall of Valparaiso. Admiral Brown's action will undoubtedly, for a time at least, increase the bitter feeling there towards the United States, although the admirals of other foreign vessels have taken prominent Balmacedists aboard.

WASHINGTON, Sept. 15.—Nothing has been received at the State or Navy Department here to confirm or deny the report from Chili of the escape of Balmaceda from Valparaiso under protection of Admiral Brown on the U. S. cruiser San Francisco. A cablegram was received at the State Department last night from Admiral Brown announcing the arrival of the Baltimore at Valparaiso on Sunday, and stating that he would leave there immediately on the San Francisco for Callao, sailing then for California. Little or no concern is felt at the Navy and State Departments about the report. The officials there deem it an act of justice. In answer to questions whether Balmaceda would be surrendered to the Chilian government if such a request were made, the Department officials simply smiled and referred to the Barrundia case, which proved, they said, that this government was not in the habit of surrendering political refugees.

SENATOR W. A. PEFFER.

The Farmers' Alliance Successor to Ingalls in the United States Senate.

The election of W. A. Peffer to the United States Senate has not yet con-

vinced politicians that there is a third party in the United States. It was, long ago as it took place, so unexpected that party newspaper writers have scarcely yet recovered from the shock. Senate Peffer is a Western farmer and has lived nearly all his life in Kansas. He has also studied law and has been an editor. Whatever his abilities may be, there is no doubt that he has the courage of his convictions and he will make himself heard in the Senate. He described the campaign in Kansas as a revolution and himself as a Moses, leading the oppressed children of Israel.

Senator Peffer is certainly very much in earnest. He believes that the Farmers' Alliance is a great movement of the people that it will grow stronger and stronger until "the great awakening," which he says will be evident early in 1892. He claims that it has over 3,000,000 members and is rapidly growing, and that it is strongest in the Southern and Northwestern States. Col. Polk, the President of the Alliance, is of the same opinion as Senator Peffer who believes that the people have been delegating the business of Government to politicians and lawyers, and that the interest of the masses are jeopardized by the syndicates and monopolies and growingly dominant corporations.

He asserts that the money power has been robbing the farmers through an actual or relative contraction of the circulating medium, and they believe in free silver if not limitless issue in irredeemable paper. They desire at least only money that shall have a normal purchasing power. Senator Peffer lives in Topeka, Kan.

NEW WESTMINSTER.

Extensive Suit Against the Westminster Southern—A Honey Tree.

NEW WESTMINSTER, Sept. 16.—Arthur Rand has entered suit against the Westminster Southern Railway for $225,000 for breach of agreement. Rand gave the railway company valuable concessions at Liverpool, on the understanding that the terminus was going to be there. He also made several heavy sales of Liverpool property on the same understanding. Now the railway company is moving its terminus further west, and Rand's arrangements are rendered null.

Another enormous honey tree was taken down at the junction last night. It contained 480 pounds of pure honey. Col. Scott, the owner, says no more will be taken down this year.

A Fatal Collision.

NEWHALL, Cala., Sept. 16.—Early this morning it was reported here that a collision had occurred at Tehachapi between the Los Angeles express and a freight train. The conductor sent the following dispatch to Superintendent Fullmore at San Francisco: "I stopped at the east end of tunnel No. 12. There was a slide at the west end, and I sent a brakeman back to flag any train approaching. While standing there with the engine on the train it started, and before I could have it stopped it ran into the slide and pushed into tunnel No. 12. The engine exhausted all the steam and water in doing this. We had to get water and refill, and before we could start No. 22 ran into us. My flagman had not been called in. Col. Wm. Harney, manager of the Golden Gate woolen mills, was standing on the platform before the sleepers and was killed. A. C. Baldwin, of Los Angeles, had his head slightly cut; Mrs. Healey, Los Angeles, back hurt; Miss Spring, Illinois, back bruised slightly." A wrecking train and three doctors have gone to the scene of the accident.

The declining powers of old age may be wonderfully recuperated and sustained by the daily use of Hood's Sarsaparilla.

Now is your chance to get a cottage cheap, and on easy terms. Lee & Fraser, 11 Trounce Avenue.

Mount Tolmie Park. Look it up.

THE MITYLENE AFFAIR.

REPORTS REGARDING BRITAIN'S ACTION DENIED.

Mystery Surrounding the Affair—Russia's Alleged Intrigues in Norway—Stenographers' Congress—An English Clergyman's Disgrace.

LONDON, Sept. 15.—The public are anxiously waiting for a distinct official denial or admission of the news about the seizure of Mitylene. So far the denials have been qualified in a way that implies foundation for the story. Advices from Berlin and Vienna state that the news was received with amazement in Government circles and there was lively use of the wires connecting with the legations at Constantinople. The Berlin government from all that can be learned, anticipated war at an early date, but did not think it would originate at the Dardanelles. The Dardanelles question, it was thought, would be settled by diplomacy, and the Franco-Prussian or Austro-Russian frontier would witness the first great encounter.

SUCCESSFUL MANŒUVRES.

The German army manœuvers have proved more successful than those of last year, for the reason that the troops are more accustomed to the weapons and to smokeless powder. At first it required the utmost care and watchfulness on the part of the officers to prevent the men from being demoralized by the smokeless powder, which they were unable to understand, but now this peculiar feeling is generally overcome and the new recruits are steadied by the example of the older men. The Kaiser has stated his entire satisfaction with the conduct of the troops.

THEIR HEADS STUCK UP.

A dispatch from Aden, Arabia, says that the heads of the conquered Yemen rebels have been distributed about the various Turkish ports in Arabia and stuck on posts for the edification of the inhabitants. At Sanan, which is a great trading centre, no less than 15 heads are on exhibition in various stages of decay. It appears that Ahmed Roshdi, the Turkish commander, surprised a large rebel force while they were asleep and keeping a poor watch. He slaughtered them without mercy, taking no male prisoners, and dead men who had been leaders in the revolt were decapitated. The interior tribes remain unsubdued, but the inhabitants of Yemen have all submitted to the Sultan.

EAST INDIA PROSECUTIONS.

A dispatch from Madras says considerable indignation has been stirred up in India by the prosecution of a boy who set up a Phallic image before a house that was in course of erection. The boy was arrested and sentenced to imprisonment. The sentence has called forth loud and earnest protest on the ground that the boy was innocent of any indecent intention, and only meant to follow the religious forms taught by his ancestors, the Phallic worship still having many followers in Southern India. Some action will be taken in England to have the boy released. The interference with native customs and religion has been carried to a great extent under Lord Lansdowne than any other previous viceroy, and has attracted a corresponding degree of hatred for the officials in charge of the government that sustains them.

STENOGRAPHERS' CONGRESS.

A Berlin dispatch says the international shorthand writers' congress will meet in Berlin about the end of September. There will be a large attendance. The sittings of the congress will be held in the building usually occupied by the German reichstag, and an exhibition illustrating the existing systems of stenography will be arranged. The Berlin authorities have granted the use of the great hall in the rathhaus for the public inauguration of the congress. Numerous lectures will be delivered by the representatives of the various systems of shorthand now in use.

LAND FOR SIBERIAN EXILES.

A Siberian dispatch says any exiles in Siberia, save those who are in close imprisonment for high crimes, may now take a section of land, equivalent to about 25 English acres, and cultivate for their own use. The exile thus favored must report at the nearest police office at least once in three months, and cannot depart except as a fugitive from the immediate jurisdiction.

THE REPORTS DENIED.

A dispatch just received from Constantinople says there is no foundation for the story of British armed occupation of the port of Sigori, on the island of Mitylene. The fact is that a party of British naval officers on Saturday last left their ship for the purpose of picnicking on a deserted island off Cape Sigori. The party re-embarked the same evening and their vessel sailed.

A Berlin dispatch says: From Constantinople there comes an official denial that Sigori has been occupied by a British force.

THE MITYLENE REPORT.

LONDON, Sept. 16.—The question of the occupation of Mitylene is still a mystery, although the island is within easy distance of Coustantinople, Smyrna and Athens. The general belief is that an occupation has taken place and that a few days will witness an explanation of the reasons that influenced Great Britain in the matter.

THE SCANDINAVIANS.

A Stockholm dispatch says that the Swedes generally are opposed to any concession that would imperil the union with Norway, and that the Swedes will fight if necessary to prevent secession. The Swedish people do no approve the pacific and tolerant course of King Oscar toward Norway and they want that country taught the lesson which sooner or later it is expected to learn. The Norwegian agitation is attributed chiefly to Russian influences. The Russians are anxious to enfeoff Scandinavia, and have long been suspected of an ambitious eye on the peninsula. The Norwegian demand for a more equitable disposition of authority has given Russia its chance, and it is said the Swedish and Norwegian cities are swarming with Muscovite spies. Against them nothing can be done, as their papers are as a rule all right and they cannot be readily dealt with on suspicion.

RUSSIA DISCOMFITED.

A Vigo dispatch says that the seizure of Mitylene has botched matters and discomfited Russia, and that probably another attempt will be made by Russia to send transports by the Mediterranean. The correspondent adds that Russia's plan probably included the sudden seizure of Constantinople, and that the French fleet would have come to the aid of the Russians in a conflict.

A CLERICAL FRAUD.

If the bill giving the bishops of the Church of England greater authority over the clergy in the interests of morality were now before Parliament, it would probably pass with a rush, as many of the clergy and laity of the church are indignant over the existing situation. The Rev. St. John Dearsby, vicar of Wilmington, Sussex, was recently convicted of the responsibility for a young girl's ruin and ordered to pay a weekly sum to the victim. He has now secured from the girl a full discharge on payment of £100. He still remains in the pastorate and shows no disposition to resign. As his offence was only a disdemeanor, he cannot be removed by the bishop, and he continues in the pulpit, much to the disgust of the people.

TO RESTRAIN BULL FIGHTING.

A Paris dispatch says that Minister Constans has instructed the authorities in southern France to take steps to restrain bull-fighting, which has become a very popular amusement, attended by much cruelty.

NANAIMO NEWS.

Improvements in the Mines—Court Business—The Miners' Troubles.

NANAIMO, Sept. 15.—Work in the No. 1 shaft of the New V.C. Co. has been suspended for a few days while the electric tramway is being put in. The work is being undertaken by Mr. M. Hubbard, of the Edison Electric Company. The tramway will embrace about taree miles of line, over which will run three motors, two of thirty horse power and one of fifteen. The motors will be the same size as the coal cars, and with a loaded train are expected to make six or eight miles per hour. The engine for generating the electricity will be of 130 horse power, and the current about 250 volts.

COUNTY COURT.

The largest list that has ever been brought into the Nanaimo County Court was disposed of by Judge Harrison yesterday. The cases were principally actions for debt, and were not sufficiently interesting to induce the public to listen to the proceedings, so that only the parties sued put in an appearance. The original list numbered over 100, but many were settled out of court, so they did not come up. The large list goes to show the rapid increase of business in the city. It is not that things have been dull here, or that work has been scarce. On the contrary, everything around the city has been flourishing until the last two or three days.

FAILED TO AGREE.

The two committees of the different factions of the Miners' Union met on Saturday night, and the meeting is said to have been a stormy one. The committee from the lodge insisted on the payment of the back assessment, which was strenuously opposed by the other committee, and this led to hard words, which eventually broke up the meeting without their coming to a decision. It is believed the pressure strained relations will be apparent in the labor procession next Saturday, and the number present on that day is expected to be small. The other faction will advise their party not to put in an appearance.

SPORTING INTELLIGENCE.

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

THE OAR.

OARSMEN AT NEW WESTMINSTER.

NEW WESTMINSTER, Sept. 16.—Dutch and Stephenson arrive this evening at 6 o'clock on the Rithet. They are eagerly expected and will be received by a big crowd. Hanlan and O'Connor are putting in very earnest practice, being out twice a day, training hard. McLean still adheres to his determination to enter for the professional single scull race. The Westminster four-oar crew are practising hard, and getting into rather good form. They expect to have a hard time beating the Victoria and Vancouver crews, but say they will try their best.

THE GUN.

Messrs. Archie Reid, "Dune" Jamieson, G. Barlow, W. Millington and W. Hussey, who have returned from a week's hunting expedition to Kemp Lake, brought in four deer, three dozen salmon trout and 21 brace of grouse.

Irish National League.

LINCOLN, Neb., Sept. 16.—Secretary Sutton, of the Irish National League of America, is in receipt of a private telegram asking the condition of President Fitzgerald, and stating the report is current that he (Fitzgerald) is insane, and that the league convention called for Chicago in October would be postponed. Mr Sutton emphatically denies both rumors. Mr. Fitzgerald is daily growing in strength, and the convention will be held on the date appointed.

Several Seasons.

"For several seasons I have used Dr. Fowler's Extract of Wild Strawberry and find that it makes a perfect cure even of the severest attacks of summer complaint and diarrhœa. It is as precious as gold.' Mrs. F. C. Winger, Postbill, Ont.

OUR OTTAWA LETTER.

THE MEANEST SCANDAL YET UNEARTHED.

Groceries and Dresses Charged to the Public Works Department by the Employees—The Meanest Piece of Politics on Record—Chapleau Must Go.

From Our Own Correspondent.

OTTAWA, Sept. 7.—The public is astounded at the numerous disclosures made before the Public Accounts Committee, but did that committee sit daily what would be their astonishment? Black and damning as these revelations are, and many though they be, the reason why they are not more hideous is that there has been no time found to ventilate them. When a meeting of the Public Accounts is called, there are before it Messrs. Lister, Somerville, Mulock, Barron and others, ready to go on with a number of cases. Only one, of course, can be taken up, and that one will occupy all day. Despite the strenuous efforts of the members of the Government, and the brazen effrontery of Mr. Chapleau in particular, Mr. Lister has proved that the Printing Bureau is "saturated with corruption," but the half has not yet been told, nor is the inquiry midway completed. Beyond being morally certain of his case, Mr. Lister had little proof to begin with. Once, however, the cord unlinking these wrong doers was broken, there was exposed to view a state of affairs which was utterly rotten. That such could exist without the knowledge of Mr. Chapleau, when all the town and a large part of the country knew it, no one can believe. To say so would mean either that the Secretary of State is far more incapable than Sir Hector Langevin, or far more corrupt, which the general public alway believes he was. Mr. Senecal is in the United States, to escape being placed in the tower room for his disobedience to the command of the House, and Mr. Bronskill has obtained a situation from some of the paper companies, at the instigation of Mr. Chapleau. In this way his mouth may be sealed. On Wednesday next the investigation goes on, and in the meantime the foreman of the composing room and the foreman of the press room have both left on their holidays, after being subpœnaed. Whether they turn up on Wednesday or not remains to be seen.

THE LATEST SCANDAL.

In 1879, immediately on the return to power of the Sir John Macdonald Government, there was a large number of appointments to the civil service, some permanent and others temporary. This was one of the modes of rewarding those who had performed services to the Tory party. Among those who were thus rewarded was one Horace Talbott, a French Canadian. He was placed in the Public Works Department and a new office created for him. He was to have charge of the supplies for the Department. There was another clerk named Dionne, who was appointed about the same time. Talbott made out the requisitions for supplies to the Department and the heads of the different branches, or the deputy or secretary, signed them. He also made out bogus requisitions for articles which the Department was not in need of, got them signed and gave them to merchants who copied them into an invoice and reordered an account to the Department for the amount. Instead of supplying the articles specified in the invoice, Talbott got groceries, dry goods or whatever his household might require. Dionne shared with Talbott. In 1885 an investigation was had into the matter, and the result was that Talbott's office, which never should have been created, was abolished. Talbott, however, was retained at a salary of $1200 per year. He had no particular duties beyond electioneering. When asked his duties at the Public Accounts Committee he said he was at the command of the Secretary. The Government knew the existence of these frauds, yet Talbott was retained in office, and to say that they are any more anxious now than then to have pure departmental administration is arrant hypocrisy. Both Talbott and Dionne must go. Here it may be said that while some of the clerks are suspended, to satisfy public opinion, a number of them are being employed all the same and paid out of contingencies or in some other irregular mode on the authority of the Ministers.

CHAPLEAU MUST GO.

The enquiry into the Printing Bureau scandal and the New England and La Presse deal has not yet been completed, but enough has been laid bare to show that the usefulness—if ever he had any beyond the election field—of Mr. Chapleau is gone. His own party has come to this conclusion, but how to get rid of him is a very different matter. Weak in the Government as an adviser and a departmental head, yet he is strong in Lower Canada, and his boodling propensities will in no way impair his popularity there. Some argue that it will be as easy to throw Chapleau and Langevin both overboard as to throw one of them. This would satisfy Langevin, but not John A. Chapleau. Messrs. Girouard and Ouimet would make two ordinarily good men to replace them. But then there are Sir Adolphe, Haggart and Dewdney who certainly have to be replaced. Hon. Mackenzie Bowell cannot remain in the Cabinet because of his declining health. He has been a hard worker and an honest politician. To talk of replacing these from the element which now compose the Tory party would be little short of madness. It cannot be done, nor will it require to be done. It will not be this session, but before another is over Hon. Mr. Laurier, who has not only a strong but a united following behind him, will be called on to form an administration.

PRIVILEGES AND ELECTIONS.

Before this letter reaches TIMES readers the sub-committee of the committee on Privileges and Elections will have its report ready. There is no doubt but the Government members will endeavor to whitewash Sir Hector Langevin. That was their first intention in the Rykert case, but they were compelled to change their minds. In this case they consider that driving Uncle Thomas out of politics ought to satisfy an indignant public. Whatever may be the final result Sir Hector has left the cabinet for good, and in a very short time he will forsake politics for ever.

EAST NORTHUMBERLAND.

The Conservatives are utterly disgusted with the developments which have taken place before the special committee to investigate the Cochrane case. For utter meanness there has been nothing like it on record. With a "skimmed milk" reputation, being fined for selling the skimmed instead of the pure article to a cheese factory, Mr. Cochrane has added to his character such an amount of petty smallness that it would be impossible to imagine any body guilty of carrying it. Peddling the patronage which his seat in Parliament as a supporter of the Government afforded him at so many dollars an office is something unheard of in political life. He has read himself out of public life.

NOT MUCH FOR THE PACIFIC SLOPE.

Before Parliament closes there will have been five months of a session, yet if anyone troubles himself to look over the Hansard he will discover that there were not five genuine words uttered nor one single effort made by the representatives from British Columbia to obtain anything like justice for their Province. To send six voting machines from one province is very convenient to the Government, although it is impossible that they can respect it, and as for the electors of British Columbia, if their interests received no consideration, they have themselves to blame.

SLABTOWN.

A New York Fire.

NEW YORK, Sept. 16.—Fire broke out yesterday in the clothing store of Perego & Co., at the corner of Fulton and Nassau streets. The flames spread to the corner building, occupied by Edwards, clothier, and formerly occupied by the Commercial Advertiser. Both buildings were a total loss. The firemen found difficulty in getting pressures of water. The flames spread to the two adjourning buildings on Nassau street, and sparks that flew across the street ignited the window frames of the new addition to the Bennett building. There was much excitement in the neighborhood, most of the buildings being old and rickety. The burned building was owned by Chas. F. Beach, of Bridgeport, Conn., and valued at $400,000. Ira Perego & Co., gents' furnishing goods dealers, had $50,000 worth of goods, and they have lost everything. They were insured for $60,000. So far as learned two persons were injured at the fire. They are William Wilson, a tailor, who injured his ankle while dropping from the fire escape, and Sam Rosburg, engineer, whose arms were burned. The fire department officials place the total loss at $400,000.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams' Pink Pills are a certain cure for all diseases to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c a box) by addressing Dr. Williams Med. Co., Brockville, Ont.

STANLEY HOUSE

General Dry Goods

Cor. Broad and Yates.

Our stock is rapidly approaching completion as regards Fall Goods. We invite you to inspect our first shipments of Jackets, Mantles, and Dress Tweeds. Our Jackets and Mantles are especially worthy of notice. In addition to our regular importations we have purchased at a considerable discount, a full range of German Manufacturers' Samples. They comprise some beautiful designs, and as this purchase gives us a very large stock we have marked all in this department even lower than our usual small profit. We have a first-class dress and mantle maker on the premises, and if we cannot give you a good fit we will make one to your order. In our own importations we pay special attention to extra small and extra large sizes. Garments altered free of charge. We would impress upon our customers the fact that we consider it no trouble to show goods.

NEWS OF THE DOMINION.

Recent Happenings Reported From the Eastern Provinces.

John Irvine, ex-county treasurer of Frontenac, is dead, aged 70.

Neil McCauley, one of the first settlers in Loughborough township, is dead, aged 80.

At Lindsay the infant son of David Begg was scalded to death by a pail of boiling water falling over upon him.

A 10-year-old girl named Switzer fell into the lake at Kingston and was drowned before her frantic mother's eyes.

John Ryerson, son of the late Major Ryerson, of Toronto, who was drowned on Dominion day, was killed Friday by a train.

W. Galloway was killed near Brockville by the balance wheel of a corn cutter breaking and flying fragments striking him.

While an artesian well was being dug at Rockwood asylum, Kingston, a pocket of natural gas was struck at a depth of 170 feet which would indicate a reservoir of great depth.

Albert Edward Harrington, a young divinity student who disappeared from Toronto recently after having committed a number of forgeries, returned to the city and was immediately arrested. He acknowledged his crime and says he was robbed of his ill-gotten gains in Chicago.

To move Manitoba's wheat crop this year, estimated at 20,000,000, it would take 32,000 cars of 625 bushels to the car, or 1230 engines drawing 26 cars each. The whole would extend over 200 miles in a line. At the rate of one train every two hours it will take 3½ months to transport the entire crop.—Winnipeg Tribune.

At Sherbrooke, Que., Felix Bouchard, laborer, aged 28, was discovered dead in his bed with his head and shoulders covered with blood, and marks of violence on the floor. A bloody hatchet and flat-iron were found in the house. Mrs. Bouchard, the only other occupant of the house, has been arrested, pending the finding of a coroner's jury. The prisoner tells a conflicting story of the affair.

The Mail's Montreal correspondent says: "The Quebec crisis continues to be the burning question of the hour, and there are all kinds of wild rumors afloat, here, regarding the difficulty between the Lieut.-Governor and Mercier. The general opinion is that the Quebec premier will hold out against the demands of the Lieut.-Governor and that, rather than accede to them, he will resign and face an appeal to the Province. There has been no official announcement, as yet, as to the exact position of affairs."

Three of the locked-out tailors, of Windsor, James O'Dougherty, president of the local union, John Coppin and Max Peters, were tried on a charge of conspiracy. Although it was shown that they merely asked non-union men to join the union and assist its members to obtain their rights, they were found guilty and sentenced to a month's imprisonment. The judge stated he would fine them heavily, but he knew the International union would pay the fines. Habeas corpus proceedings have been instituted and the case taken to a higher court.

A Yarmouth dispatch says that the news that the schooner Georgiana, of that place, which was being towed to Halifax, had capsized, and with the loss of all hands, created great excitement. The captain and crew all hailed from the Acadian parish of Tusket Wedge, 12 miles from Yarmouth, and all were of the flite young men and most of them unmarried. The disaster has stricken Tusket Wedge with grief, as the lost were amongst the most promising youths of that place. The list of the crew is as follows: Eleaser Leblanc, 25, single, captain, of Tusket Wedge; Morrell Porter, Raymond A. Leblanc, Raymond Surette, Bacharie Leblanc, Elpriest Amirault, George Porter, Alexander Parta, all of Tusket Wedge, and single; Leonard Porter, single, of Yarmouth; John M. Surette and George Surette, both of Pinkney's Point, married; August Surette, of Pinkney's Point, single; Isaiah Porter and Amile Landrot, of Tusketwedge, married. This is the list of men shipped. One of them afterwards left the vessel, but which one the owners cannot tell. They are sure there were but sixteen men on the boat. The Georgiana was owned by H. & N. Bleweit, of Yarmouth, was ninety tons and was built at Shelburne in 1888. She had about one thousand quintals of fish and was at Labave for it a fortnight ago and would be just about coming in again for another supply.

FROM UP THE LINE.

Lounging Vags Out of Railway Towns—Other Notes.

FIELD, B.C., Sept. 9.—Constable Redgrave, arrived on No. 2 from Donald. He has been after the gamblers and vags lately and has made Field too hot to hold them. Most of them took advice and left the country, but one by the name of Frank Barr was invited by the constable to take a walk with him to the C.P.R. hotel. He there produced a warrant for his arrest as a vagrant.

The C.P.R. hotel at Field is at present full of guests and all seem pleased with the sport and collecting mineral specialties, fishing, hunting and taking photographs of the scenery, which is admitted to be grand.

GOLDEN, B. C.

Sept. 9.—The Church of England Bishop Sillitoe and wife and Rev. Simms of Donald arrived and will take the steamer Duchess for the Columbia lakes to-morrow.

Mr. Irving, a miner, while doing the assessment work on Sheriff Redgrave's mineral claim, Silver King, situated on Silica Mountain, struck a vein of copper ore which is four feet thick and many feet wide.

Sept 10.—Sheriff Redgrave arrived this evening on No. 2.

DONALD, B. C.

Sept. 9.—A fine rain to lay the dust has fallen and now the sports of foot ball, cricket and horse riding are a pleasure.

Sept. 10.—Frank Barr, a gambler of Field, was brought in on No. 1 by Constable Harold Redgrave, who charged him with being a vagrant. He was sentenced to one month's hard labor and to pay a fine of $25, in default of payment of fine an additional month's hard labor.

Sept. 11.—Hanlan and O'Connor, the Canadian oarsmen, passed through on No. 1. We were pleased to see the smiling face of Mr. Mara, our M.P., on the platform this morning.

Sept. 12.—Bishop Sillitoe arrived on No. 1.

Sept. 13. — Mrs. Brown died this morning after a short illness. She leaves a husband and two small children.

Mr. Manuel's little boy is very sick.

No. 2 train from the west is six hours late. She overtook a freight train about 100 miles west of here. No one hurt. The C.P.R. may be the fastest mail route, but two trains cannot pass on the same track.

8.30 p.m., Sept. 13.—No. 2 train arrived at Donald. There must have been a smash-up as the mail and express was forwarded by a freight caboose on the passenger.

The sheriff has put up notices for county court on the 26th inst. Outside of civil cases there is only one prisoner in the Donald lockup for speedy trial, although we have heard the constable telling two or three gentlemen around that he was only waiting for the new gaol to be finished when he would give them three months to cut wood for the winter. As they are gentlemen who read the Victoria TIMES, they may make other arrangements for the winter in a different country, as the merchants and respectable citizens of Donald will help the constable in his duty in either driving out the gamblers and vagrants, or seeing that they have a term to learn them that Donald is not the hard town it has been supposed to be.

Sept. 13.—Mr. Evans, a C. P. R. official and a J.P., left on No. 2, which now leaves Donald without one justice of the peace, until some one is appointed. The sporting gentry will have a grand high time as Mr. Cummings, the only S.M. for East Kootenay and J. P., is away in the upper Kootenay attending to roads.

Sept. 14.—Court of assize set for 3rd of October at Nelson. Judge Crease will sit on the bench. Sheriff Redgrave will attend to his duties as sheriff there.

Mount Tolmie Park. Look it up.

Taken Into Custody.

NEW YORK, Sept. 15.—Emil Brock, a passenger on the steamer Saale, was taken into custody yesterday by Deputy U. S. Marshal Barnhard. He is the bookkeeper of the Prussian Mortgage Insurance Company, who fled on September 3rd with property of the concern valued at $90,000. He had registered on the passenger list as Fritz Hilderbern.

Off to British Columbia

One hundred and fifty immigrants, ex steamer Circassian, arrived in Montreal from Quebec by the C.P.R. on Sunday night. Forty of them proceeded to British Columbia yesterday and the balance to Western Ontario and Manitoba. They were a superior lot as far as appearance went and had with them quite a good sum of money. —Montreal Herald.

For One Week

D. Campbell & Co., the leading tailors, will offer for one week only, an extraordinary reduction in suits made to order. Observe the following bargains: $30 suits for $25; $35 suits for $30; $40 suits for $35. Pants from $8 to $12, formerly $10 to $14. This is the last chance for this season.

Wisdom's Violet Cream

Is the most exquisite preparation in the world for removing the hands' enemies. It is not only a substitute for, but in every respect superior to glycerine, cold cream, vaseline, and like preparations. Try it. D. E. Campbell, agent.

A QUARTER OF A CENTURY AGO
There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back had entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."
Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

I HAVE GAINED STRENGTH!

"I could have reported a month or two sooner, but I wanted to see if the cure was permanent, and can safely say that I believe it is. I weigh fifteen pounds more than I did when I commenced. I have gained strength and that general enervation has disappeared. I will always remember you as my benefactor."
The original of above is on file in our office. It is No. 56 in a collection of over 2,000 similar letters from patients. We have a

POSITIVE CURE

CENSUS BLUNDERING.

The Westminster Ledger commenting on the curious feat of the census in decreasing the rural population of the Westminster district from 13,917 in 1881 to 13,674 in 1891 asserts strenuously that the census is wrong and that the population has increased instead of decreasing. It instances an entirely new population of 300 grown up immediately outside of New Westminster, and speaks of the large increases that have been known to occur in the several settlements in the district. We quite agree with our contemporary that there is a grave error in the census, for every person knows that many people have settled in the district in the ten years, and that there has been no exodus. The Ledger rightly concludes that the error should be corrected, and we may be allowed to add that Victoria is equally entitled to a correction of the errors which have evidently been made in the returns from this city.

CHAPLEAU CONVICTS HIMSELF.

The evidence given before the Public Accounts Committee regarding the Printing Bureau establishes clearly the fact that Mr. Chapleau is not a fit person to hold public office. The case against him is even stronger than that against Sir Hector Langevin, who found it inadvisable to remain at the head of his department, although he strongly insisted on his own innocence, and although he had good ground to expect, as events have proved, that a pail of whitewash would be provided for him. Sir Hector pleaded ignorance of the frauds committed in his department, and his plea has been accepted by the Conservative majority on the sub-committee, whose example will of course be followed by the majority in the full committee and in Parliament. Will Chapleau adopt Sir Hector's tactics, and try to establish his innocence at the cost of his competence? His own actions, as well as the evidence, would seem to preclude such a course.

The evidence has shown beyond the possibility of a doubt that the system of extracting commissions from firms doing business with the Printing Bureau was used to benefit Chapleau himself as well as the understrappers. The Rolland paper firm was a regular contributor to the Montreal election fund, handled by Dansereau, who was Chapleau's election manager, and the firm supplied paper to the Bureau. The officers of the Dominion Type Foundry Co. have shown that a subscription of $1500 to the same fund "greased" Mr. Chapleau's hands so effectively that he dropped his objection to the filling of one of Senecal's orders for type. But even more incriminating than all this is the statement made by Mr. Dansereau on Friday before the committee. Mr. Dansereau, who, by the way, has been rewarded for his political services by getting the Montreal postmastership, swore that he went to New York to purchase presses from the Hoe and Potter manufacturing concerns, that he was instructed by Chapleau to tell them that the commissions must be paid to the Conservative political organizations, and that he gave them for that purpose the names of the Montreal and Toronto Conservative associations. Apparently to break the force of this damning evidence, Chapleau put this question to Dansereau: "Did I mention that I wanted no commission except the ordinary commercial commission?" To the ordinary mind this question, instead of improving his position, constitutes a complete confession of guilt on the part of the Secretary of State, and he can hardly in the face of this confession plead ignorance. He stands self-convicted as a trader in public contracts for the purpose of securing election funds.

It will occur to readers familiar with the history of Conservative rule in Canada that if Chapleau is called to account by the Premier he can at once answer that he stands in the same boat as the latter. Mr. Abbott was the chief manipulater and distributor of the campaign funds which Sir Hugh Allan and his allies handed over to the Macdonald Government as consideration for the Pacific railway contract, and he can hardly read Chapleau an effective lecture for following his evil example. Further than this, we all know that the maintenance of Conservative rule in Canada was made possible only by the existence of corruption funds composed chiefly of "commissions" and "contributions" from contractors and red parlor men. The fall of Langevin and Chapleau will therefore not end the matter; the whole Government gang must get out and give place to honest men.

THE LANGEVIN CASE.

The majority on the sub-committee of the Committee on Privileges and Elections, in drawing up their report on the Tarte charges, have stultified themselves, as most people expected they would. The attitude of the Tory politicians and the Tory press since the investigations were begun made it perfectly clear that when the crucial moment came the majority would not hesitate to stultify themselves on behalf of as great a rascal as the politics of Canada has yet produced. It is not to be supposed that the Tory members were moved to the whitewashing act from personal regard for the detected boodler. It was party exigencies, which, need it be added, only makes the matter worse. Toryism is made to appear to rest on fraud and to exist by fraud. The interests of party are made paramount to the interests of the State. The "old flag" is being waved by villain hands. The majority report find that Uncle Thomas did not exercise undue influence upon the department to secure dredging contracts for Larkin & Co., that there is no evidence to show that McGreevy "corruptly" influenced the Public Works Department. This is credible. It is as easy to be believed as one of Munchausen's tales. It was proved that the firm of Larkin & Co. contributed to the Langevin testimonial fund, but it was not proved that Sir Hector was aware of the fact. Is there a man in Canada who questions Sir Hector's knowledge of the names of the firms which contributed to his bribery fund euphoniously called a testimonial fund? Is it reasonable to suppose that Sir Hector would accept a fund of this kind and not take the trouble to acquaint himself with the names of the donors? We all know that he would. Common sense rejects any other assumption. But it is not proven! A Scotch verdict. Nevertheless the men must have blushed who signed their names to this monstrous finding. The committee charge Larkin & Co. with conspiracy to defraud the Government, which conspiracy was made all the more effective by reason of the confidence of the minister of Public Works in Thomas McGreevy. Neither space nor time permit a review of the testimony elicited by the investigation, but nothing is more certain than this, the relations existing between McGreevy and Langevin were those of men who understood each other perfectly. They were the true conspirators. They levied blackmail on contractors, and their object was, first, the feathering of their nests; second, the ways and means of carrying elections. The history of the affair makes it appear that the "conspiracy" originated within the Government; that it was impossible for it to have matured except with the connivance of the head of the department. Larkin & Co. only made the most of the situation. They had the option of conspiring to defraud the Government along with McGreevy and Langevin, or cease to operate as Government contractors. The committee know, everybody knows, that fraud on the Government is impossible without the connivance of those who represent the Government. The majority of the subcommittee have covered themselves with infamy. As panderers to fraud they should be remembered. If their constituents are true to themselves, they will demand that this gang hand in their resignations.

EDITORIAL NOTES.

The Egyptian army, as constituted at present, has a total strength of 13,000. Of the officers about 60 are British. In December, 1882, after the suppression of Arabi's revolt, the army which he had corrupted was disbanded, and the organization of a new force was entrusted to a British general, who took command with the title of Sirdar (an Indian term, meaning captain or head man). At the same time it was resolved by the British Government that a British force should remain in occupation till order was quite restored and all fear of renewed outbreaks was removed. The strength of the army of occupation at present is 8900, in command of Major-General the Hon. Sir James Dormer.

Goldwin Smith, writing to the Mail, presents a new argument in favor of closer trade relations with the States. He says:

For the third time within a few years there appears to be a danger of war between England and Russia. Should war break out Russia will, of course, strike, if she can, at the dependencies of England and at her ocean trade. The trade of Canada with Great Britain would then be liable to interruption. At all events insurance would rise. The Americans, in the meantime will enjoy the immunities of neutrality. Had we commercial union or free trade under any name with our own continent our principal market would still be open to us. Not only so, but we might practically keep up our own trade with England by exporting into the United States products which would take the place of those exported by the Americans to Europe. Under our present system we shall, if war breaks out, probably be left without an open market on either continent. This is a contingency for which those who bid us look exclusively to the British market always fail to provide. It would be most calamitous to Manitoba and the Northwest, whose harvests, however bountiful, will lose a great part of their value, if they have to pay heavy toll in shape of war rates of insurance while those of their American rivals are exempt.

CROFTER COLONIZATION.

The Commissioners and Mr. Alexander Begg Return from an Exploratory Trip.

This morning's train brought from Nanaimo Col. W. J. Eglediue, R.C., Major Wm. Clark and Mr. Alex. Begg, who left by the steamer Sir James Douglas on the 25th ultimo. The trip occupied exactly three weeks, and having been extended to Port Simpson and Queen Charlotte Islands, the distance run by the steamer is reckoned at about 1500 miles.

The object the party had in view was to examine and ascertain the most suitable locations and land for fishing stations and settlement, in connection with the "Crofter colonization scheme," along the western and northern coast of Vancouver Island, including islands, and a portion of the northern and eastern coasts of Queen Charlotte Islands.

Port San Juan valley formed the starting point of the party's inspections. Both Gordon and San Juan rivers were examined as far as fallen timber and tide water would permit. Barclay Sound was next visited and several of its islands examined. The steamer proceeded as far as Alberni, taking in Uchuckleslt and Ekool on the downward trip, anchoring for the night in Toquart harbor.

Skirting along the level coast at the foot hills of the mountain range, Uclulet Arm was the next objective point. There the party found Messrs. Sutton at work erecting a pier, and preparing for operations in connection with the proposed sawmills, which are to be supplied with timber from the region bordering on Kennedy Lake, which may be brought by tramway to Uclulet Arm for shipment, or be sent round by Clayoquot Sound if deemed preferable.

Clayoquot Sound, Vargas, Flores, and other islands contiguous, were next viewed, as far as Hesquiat Harbor.

Next in order were Nootka and Kyuquot Sounds. Owing to strong north-westerly wind, the inside passage of Nootka Island was chosen.

The examination of Quatsino Sound completed the investigations on the west coast. Clear weather was experienced during the whole time.

After passing Cape Scott, the north-westerly point of Vancouver Island, Queen Charlotte Sound was crossed to Cape Caution, to make Port Simpson by the inland route.

From Port Simpson the voyage was continued to Massett Inlet, which was visited; also Naden Harbor, on the north coast of Graham Island.

Skidigate, on the south of Graham Island, was also visited, and Cumshewa Inlet, and Clue Oil Works on the east coast of Moresby Island, which completed the work on Queen Charlotte Islands.

The return trip from Cumshewa to Nanaimo, via Millbank Sound, occupied from the 10th to the 14th inclusive.

The party speak in the most complimentary terms of Capt. Gaudin's attention, and the cheerful assistance of his men during the voyage.

LEGAL INTELLIGENCE.

SUPREME COURT CHAMBERS.

(Before Mr. Justice Crease.)

In Gray vs. McCallum—Plaintiff appeared for an order requiring defendant to show cause why $5700 paid into court by the plaintiffs should not be paid out to them again. The court decided that the application should be heard by the chief justice, in pursuance of whose order the money had been paid into court. C.C. Pemberton for plaintiff; E. V. Bodwell for defendant.

Green vs. Forrest—This was an application on the part of the plaintiff for an order setting aside a previous order for judgment under certain circumstances. The order was granted. E. V. Bodwell for plaintiff; Charles Wilson for defendant.

Vernon vs the TIMES—This was plaintiff's (Hon. F. G. Vernon) application for an order to postpone the trial in this case to the 24th inst. The court granted the order, the parties having consented. E. V. Bodwell for plaintiff; Thornton Fell for defendant.

Mount Tolmie Park. Look it up.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889

Royal Baking Powder

ABSOLUTELY PURE

THE CITY AND DISTRICT

Arrived O. K.

A fine stock of Razor Strops; a complete line of shaving materials, etc. Pocket Cutlery, Scissors, Table Cutlery direct from Sheffield, at Fox's, 78 Government street. Call and examine. *

Paid His Fine.

Montrose the young man arrested at the Turf Club on Saturday who was unable to obtain the money to pay his fine remained in the jail until last evening. As soon as the proprietors of the club heard that he was incarcerated they sent up the required amount and paid his fine.

Sol Smith Russell.

Sol Smith Russell and his company played to another large house last evening, and left an impression that the sooner he returns to Victoria the better welcome he will get. The company was exceptionally fortunate in securing such a large house the second night, and the fact can only be taken as a sign of the company's worth. Mr. Russell lives his part.

The Police Court Blotter.

A Chinaman for peddling fish without a license and two drunken Siwashes were given accommodation at the police station this afternoon.

The Fried case will come up in the provincial court to-morrow morning.

In a fracas which occurred in a Government street saloon last evening, one of the principals tried to use a revolver. In all probability he will be summoned to appear in the city police court.

Carried by a Large Majority.

The by-law to authorize the corporation of Vancouver to raise the sum of $444,000 to purchase and extend the property and franchise of the Vancouver Waterworks Company was passed at Vancouver on Monday, by a large majority, only about 12 citizens voting against it. The price to be paid by the city for the works was the cause of a lengthened arbitration. The principal shareholders in the Vancouver Water works Company are Victorians.

Mount Tolmie Park. Look it up.

The Light Turned on.

Captain H. G. Lewis, agent of marine and fisheries, returned this afternoon on the steamer Alert from a trip to Carmanah Point, where the new lighthouse and foghorn have been erected. The light was turned on for the first time last evening, burning brightly and steadily. The new foghorn was also tried, and like the light, worked like a charm. The men who have been at work erecting the buildings also came in. Mr. W. P. Dukin is in charge of the new station.

Steamer Service.

In addition to the information contained in the advertisement of the C.P.N. Co., relative to the New Westminster exhibition, to be found in another column, still further facilities will be offered by the company. If the steamer Islander, which is due Saturday, should arrive on time, she will make a special trip to New Westminster on Sunday, and on Thursday the 24th inst., a special steamer will also be dispatched to New Westminster, each of which steamers will touch at all the landings en route.

The Germania Club Ball.

The ball season was started rolling last evening, when Oliver's Hall was filled with the dance loving members of the Germania Club and their friends. The Germania Club is one of the popular institutions of the city, and has come to be a part of the city, every winter furnishing a means of innocent amusement for the Germans of the city and those of other nationalities. Last night a splendid programme of dances was gone through, the music being supplied by Parfit's orchestra. About midnight a very appetising repast was served. Every one expressed delight at the very pleasant evening spent.

Death's Hand.

About five days ago Mr. Alexander Calder was stricken with paralysis from the effects of which he died this morning. He never regained consciousness after he was first stricken. The deceased came to the province in 1859 and for 16 years was in the civil service of the colony, prior to confederation, both at New Westminster and Victoria. He was 65 years of age and a native of Edinburgh, Scotland. He leaves two sons and three daughters. The funeral will take place on Friday at 2 o'clock from his late residence, 108 Cook street, and at 2:30 from Christ Church cathedral.

The infant child of Jas. Brown, of Pembroke street, died this morning.

Arthur Smith was called upon this morning to mourn the loss of his infant child.

Police Court Notes.

The case against Jas. Walsh was this morning dismissed, and the prosecutrix ordered to pay costs. Frank Brennan, drunk, was fined $5 and costs. A man named M. Demers was arrested last night on a charge of drunkenness, but gave bail. He did not put in an appearance and the bail was forfeited. Chas. W. Barret, who has been before his honor several times for vagrancy, bobbed up serenely again this morning. He pleaded guilty, but promised that if he was let off this time he would leave town immediately. His honor imposed a fine of $40 to be paid by the 19th inst., and in default two months imprisonment. Mr. and Mrs. Arthur Fox made their appearance again in the police court circles this morning. It seems that while Madame Fox was away visiting, her noble lord abstracted from the house a quantity of her clothing and some lamps. A search warrant was issued, the goods secured, and are now held by the court. No definite charge was laid against Mr. Fox, so his honor remanded the case for one week, Fox being allowed out in the meantime on his own recognizance in the sum of $200.

Mount Tolmie Park. Look it up.

Visit Mount Tolmie Park.

On Saturday, an invitation is extended to the general public to visit Mount Tolmie. Conveyances will meet every tram car at the Jubilee Hospital, and from that point will be driven to Mount Tolmie, for which no charge will be made. The reception will last all day. Ladies are cordially invited; visitors can go at any hour that will best suit their convenience. The company intend contributing to the comfort of their guests. Music and other attractions will be furnished in the afternoon. In no case will parties be solicited to buy property, as no houses or lots will be sold in advance of Monday next, at the office of the company, 42 Fort street.

Still in It.

We are requested to state that Jackson & Mylius have a full line of jewelry, diamonds, watches, etc., in new and elegant designs. Repairing and manufacturing a specialty. 76 Govt. street, Colonist building.

Mount Tolmie Park. Look it up.

For the South.

The steamer Umatilla sailed for San Francisco this morning with the following cabin passengers from this port: J. Bright, Adam Lapp, Mrs. L. Clements, Miss Lapp, A. Markes, G. W. Ginger, Miss Marchant, Mrs. A. Rose, C. G. Palmer, John Fletcher, E. G. Anderson, S. Shultz, N. Richard, H. B. Samuelson and wife, A. Gooden and wife, Mrs. J. Jones and two children.

An Officer Summoned.

Mr. Gilbert W. Clayton-East, a clerk at the City Hall, has sworn out a warrant before Mr. Thos. Shotbolt, J.P., charging Officer John Kenny with using threatening language, and he asks that the said John Kenny be bound over to keep the peace. The complainant says that Kenny used the following threatening words: "I will smash you up one of these days." Kenny claims that he did not use those words, but simply said that he would walk around East's collar one of these days. In his complaint East says that he is afraid that Kenny will do him bodily injury, but he hardly need feel afraid of that, as Officer Kenny is one of the most good-natured men on the force. The case will come up in the police court to-morrow morning.

For Ever and For Aye.

Right Rev. Bishop Cridge, assisted by Rev. C. E. Dobbs, this afternoon tied the mystic knot which binds Miss Ellen Cridge and Mr. Thomas Herbert Laundy in the bonds of wedlock. The ceremony took place in the Reformed Episcopal Church, and was witnessed by a very large number of lady friends of the bride. Miss Maud Cridge, sister of the bride, and Miss E. Pemberton were the chief bridesmaids, while the groom was supported by Messrs. Haines and Pemberton. Master Edward Cridge and Miss Maud Cran made a pretty pair of pages. After the ceremony the bridal party repaired to the home of the bride for the wedding repast, at which a number of invited friends were present. The bride was the recipient of not a few presents, and was loaded down with wishes for a happy matrimonial life.

Peace River Crops.

The following is a report addressed to the Minister of Agriculture by Rev. Gough Brick, Church of England missionary, dated Christ Church Mission, Peace River, June 16th last: "I am sending you samples of wheat and barley of last year's crop. Had intended sending it out by our winter packet, but failed to do so. We had a return of 108 bushels of wheat from nine bushels sown. Part of it on new land and being harrowed in too deep did not come up until the first week in June. The spring of 1890 was late. Our first wheat sown was on 2nd May, and the last was sown on May 16th. We had no frosts last season from the 3rd of June to 6th of Sept. The past winter was the mildest I have seen in this far northwest country and last spring opened up early. We began plowing on the 11th April and sowed the first wheat on the 15th. The beginning of May was very cold but there were bountiful rains the latter part of May and the beginning of this month which have brought the crops on very rapidly. I have a small piece of Ontario fall wheat which by present appearances will be headed out in ten days from this. I do not think we are as liable to summer frosts in this Peace River country as they are hundreds of miles to the south of us. Occasionally we get a very dry summer, but the rainfall this season so far has been ample. During May and up to date in June we have had a rainfall of 3 32-100."

Mount Tolmie Park. Look it up.

Australian Capital Looking Here.

Mr. Joseph Hardy is here in the interests of several well-known Australian capitalists, among whom are Alexander Brown of Sydney, and Henry Low and Co. of Hobart Town, Tasmania. It is Mr. Hardy's intention to look over the country in the interests of these gentlemen, for paying coal properties particularly and mining generally. He will be in the Province two or three years, and as he is a mining expert of considerable experience, Mr. Hardy will be able to personally judge of the value of properties submitted to him for his principals. Speaking about intercolonial relations, Mr. Hardy says Australia is now looking with more interest to Canada, especially British Columbia, which promises to be so useful to her. What is wanted to foster this interest is direct steamship service between here and Australia. New South Wales is looking for this especially. He says:

"The steamship accommodation from Australia to San Francisco is very inadequate, and hundreds of people who leave the Colonies every week by other routes would come this way, not simply as a matter of choice but of necessity, during several months of the year if there were a steamship service in any way commensurate with the amount of traffic. Those who now have to endure the choking heat of the Red Sea during May, June and July would come this way if you had boats large enough and sufficiently equipped to carry them. Affairs in Sydney and Melbourne are very quiet at present in consequence of the fact that money is tight at home and we cannot float loans. The most absorbing problem in the colonies now is that of federation, which in three or four years will be an accomplished fact, and with it protection against the world, with intercolonial free trade similar to the American system. The only colony now holding out against federation is New Zealand, but all the colonial Parliaments are discussing it, and will, I have no doubt, overcome all obstacles. Every colony, with the exception of New South Wales, has protection more or less complete."

Merit wins, as the marvelous success of Hood's Sarsaparilla shows. It possesses true medicinal merit. Sold by all druggists.

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

Steamer Boscowitz will leave this evening for the Skeena River and Fort Simpson.

Barks Serica and Callao are beginning to look trim with their cargoes of salmon. Both will be loaded within a couple of weeks.

Steamer R. P. Rithet stopped at the outer wharf this morning and loaded 20 tons of freight for the interior ex steamer City of Puebla.

Steamer Mystery went down to Nitinat last night with a load of supplies for J. A. Straith, who intends opening a trading store there.

Steamer Islander is due from the north on Saturday, and her arrival will about conclude the cargoes of the Serica and Callao, which vessels have had unusual dispatch.

The bark Lebu commenced discharging naval stores yesterday, and as soon as they are out she will be towed to the outer wharf, where she will finish unloading and at once commence receiving salmon for London.

Steamer Thistle arrived in from Ladner's Landing last evening with a full cargo of general produce consigned to the following: S. Clay, Brackman & Ker, Victoria G. & Dray Co, Hall Ross & Co, A. Lewis & Co, Baker & Son.

Steamer Lois was raised to-day, and her damages are found not to be so extensive as at first supposed. Her condensers were rendered useless and the forefoot splintered and broken. It is thought that she will be in thorough repair in a few days.

The steamer Princess Louise is advertised to leave Spratt's wharf for northern ports on Saturday, the 19th. As she left on advertised time on Sunday last and only went as far as Rivers Inlet for a straight cargo of salmon, there is every reason to believe she will leave as advertised.

Yesterday the steamer Maude loaded 1500 kegs of powder from the bark Lebu. Information was received that she had arrived at Departure Bay this morning. She will return with a load of coal for the C.P.N. Co., and will then return to the Fraser river, where the large amount of produce accumulating for this port, necessitates the putting on of several extra steamers.

CLOVERDALE STOCK FARM.

An Estate Which has Done Much to Improve High Bred Stock in Victoria.

Cloverdale stock farm, situate just outside the city limits enjoys one of the most beautiful locations among the many charming spots around Victoria. It is historical to a great extent, for it existed it may be said when Victoria city was a hamlet. Year after year has witnessed the onward march of settlement and the consequent swelling of Victoria into a town, its further progress to the rank of a city and now its areas are spreading out in many directions, one of them almost clasping the old Tolmie estate and the snug well-kept but old fashioned home established in the years gone past by Mr. Tolmie. This gentleman's history in connection with Victoria is well known, but what he did towards the production and preservation of pure bred stock has never been fully appreciated in this section. For a private gentleman he went to enormous expense in importing thoroughbred animals into this country and laying the foundation, so to speak, of high class breeds of cattle, horses and other live stock. Happily his sons have the father's spirit. Simon has studied veterinary science, and has met with considerable success, taking his degree as a veterinary surgeon with high honors. He has now worked up an extensive practice in Victoria, in addition to which he takes over a large portion of the work in the management of the estate with his brother John. In this way the work instituted by the father is carried on by the sons with the further assistance given by science and careful management, so that the stock of Cloverdale farm looms up in the prize list of every agricultural exhibition in the country.

Mr. Simon Tolmie, V. S., recently added to the stock some priceless animals from rare breeds and prize winners of the east. These, in addition to that bred at home, will represent the Cloverdale farm at both Westminster and Victoria this year, and in standing for the farm they will uphold Victoria's credit.

Through the kindness of Mr. S. Tolmie, V.S., a TIMES representative was enabled to visit the farm yesterday and see some of the magnificent and splendidly kept stock there. Among the animals which are to be shown at Westminster, and which Mr. Tolmie will take over Sunday night, is the handsome stallion Lollard, by Henry Clay, sire of Shawmut 2:26, dam by Malcolm. He is 9 years old and took first prize two years ago at Chicago as a roadster stallion. Of a beautiful blood bay color; easy, open, graceful action, and entire freedom from vice, carrying himself nobly and proudly, he is a pure specimen of the horse as he should be. He was brought out from the east this spring by Mr. Tolmie and should hold his own in the class for which he is to stand at the exhibition.

Eva Lucille is a standard bred mare, 6 years old, by Indianapolis, 2:21, sire of Budd Dobble, 2:12¾, and several others in the 30 list; first dam by Cuyler. She has never been trained, having been kept for breeding purposes. Eva was imported this spring from Kentucky. She is a splendid driver, with a free open gait, and if she does not breed speed, she will produce plenty of style and action. She has every point necessary for this. It is the intention to exhibit her as one of a carriage team.

Gyp, a brood mare of much promise will be shown in conjunction with Eva Lucille as a carriage team. She is by Mac, 2:26, dam Fanny Fern.

Lizzie E. is a standard bred California filly, 3 years, by Anteo 2:16¼; first dam by McLellan. She has only been broken this spring, and has developed very good going qualities already. Lizzie will be heard from later.

Midgard, the standard bred stallion, 6 years, by Mambrino Dudley, 2:19¾; first dam by Hambletonian 10; second dam Seeley's American Star, is in training for the coming meeting of the Victoria Jockey Club, and is showing up remarkably well, considering he has never been trained before.

In cattle the farm has some treasures of pure thoroughbred cows and bulls. Moonlight is a lovely animal. She is a pure white shorthorn, with hair white and clean as well prepared flax, and fine as silk; with a perfect wealth of flesh, which she carries with positive gracefulness. Her weight is in the neighborhood of 1800 pounds, but she trips off as lightly as a two-year old, although she has all the sedateness of demeanor that belongs to her seven years. Moonlight, which was bred by J. & W. B. Watts, of Salem, Ontario, by Barmton Hero, has splendid breeding points, and is a superb animal of her class. She ran away by long odds with the sweepstakes open to all breeds at Ottawa, after taking all the first prizes for which she was shown there and elsewhere in the east.

Katinkah IV. is a seven year old roan cow, a beautiful as well as useful animal, bred by W. D. Stoddart, of Brantford, Ontario, out of imported Katinkah, by Laird of Ercildoune. She is winner of a number of prizes; is quiet, kind and a good breeder.

Frolic and Mystery are her twin yearling heifers, and are already nearly as big as their mother. Katinkah's Pride, by Chilton Duke, is a wonderful calf for a month old.

Sweet Briar, which it will be remembered took first prize last year as a two year old, will show up at the fair this year in splendid condition. She has proved herself a remarkably good milker.

Jennie Dean is also remembered. Her stock has taken prizes wherever shown, and she is just as reliable a breeder as ever. Standing beside her in the stall is her yearling daughter, Chilton Lass, by Chilton Duke, a lovely animal with many good points.

Molly Bawn is another handsome milk-white cow which will give an account of herself.

Royal Knight, a pure bred shorthorn of the Booth family, is a wonderful specimen of a yearling bull, with a coat soft and glossy as that of a pure bred stallion. He is by Barnet (imported) dam Rose of the Valley, and has ever been shown, but will give a good account of himself. He is very growthy, with lots of promise of development, and plenty of room in which to carry out that promise to its best advantage.

Chilton's Prince, bred by the Tolmie estate is a surprise in the shape of a nine months old bull. Dam Jennie Dean one of the greatest producers on the farm and probably in the country, her stock bringing very high prices. Chilton's Prince is a thorough chip of the old block, Chilton Duke.

The Tolmie estate will also exhibit five head of pure bred Leicester sheep including the imported yearling ram Nelson.

Several head of pure bred Berkshire swine will also represent the farm.

"Don't Care to Eat."

It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. This medicine gently tones the stomach, assists digestion, and makes one "real hungry." Persons in delicate health, after taking Hood's Sarsaparilla a few days, find themselves longing for and eating the plainest food with unexpected relish.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

A SHORT SESSION.

The School Trustees Meet Last Evening—Routine Business Transacted.

The Board of School Trustees met in the City Hall last evening, for the disposal of routine business. There were present Chairman Hayward and Trustees Richards, McLaughlin, Jessop, Saunders and McConnan.

The secretary read the following from the Superintendent of Education:

Education Office,
Victoria, Sept. 9, 1891.

DEAR SIR—I have to acknowledge receipt of copy of resolution passed by the board of trustees at a recent meeting, referring to examinations, promotion of pupils, etc. I am instructed to state in reply for the information of the board, that all matters appertaining to the internal working of the schools are entirely foreign to the duties of trustees, and I am further instructed to point out that the supervision and direction of the schools are, by sub-section 5 of section 8 of the Public School Act, made the duty of the superintendent of education, subject to the approval of the council of public instruction.

Yours truly,
S. D. PEFF.
Sec. Council of Public Instruction.

Trustee Richards wanted to know what sub-section 5 of section 8 had to do with the resolution. As a member of the committee appointed to see that certain things were done at the central school, he was going to see that they were done, irrespective of what the superintendent says. The communication was received and filed.

Mrs. L. M. Caldwell was granted two days' leave of absence from school, a suitable substitute to be appointed.

The Deputy Commissioner of Lands and Works wrote, giving the list of companies in which the schools were insured in, and the date of expiration.

The matter was left in the hands of the finance committee.

Trustee Richards moved, and Trustee McLaughlin seconded, that the Commissioner of Lands and Works transfer the policies held by the Government to the Board of School Trustees.—Carried.

Secretary Erskine reported that the school desks would be here in about a month. Also that teachers had complained that the school rooms were getting chilly since the damp weather.

On motion it was decided to call for tenders for the supply of fuel. The matter of fitting up stores was left in the hands of the supply committee.

TENDERS.

The tenders for the additions to the ward schools were opened and the contract awarded to Mr. W. Fullerton, his tender being $2333 for the three schools. There were 13 tenders, ranging from the above amount up to $3120.

Trustee McLaughlin suggested that a visiting committee be appointed, say two for every month.

The chairman thought it would be better that the whole board be a visiting committee, so the matter was dropped.

The meeting adjourned until the second Tuesday in October.

THE HOTEL BUSINESS.

TO THE EDITOR:—I am at one with you on the question of a site for a new hotel. Your reasons against the site in Government street are, to my mind, unanswerable, and it is no unkindness to any one to give such an opinion, for the site can be sold for other purposes, probably at a profit. I should like to ask any man, outside of this Board of Trade, what business the board has with the issuance of shares of the Canada Western Hotel Company. They have as much right to call on the Bank of British Columbia to issue more shares as they have to call on the hotel company. The proper place and time to call for an issue of more shares is in the office of the company and at a meeting formally called. Provision is made in the articles of incorporation of all properly constructed companies for calling such meetings, and if there should be happen to be none, the shareholders can petition the court to wind up the company. Mr. Redon, it is well known, meant by his own holdings and his friends to have control of the Western, meant to make it pay from the beginning, being an experienced hotel man. He knows that this business, undertaken on a large scale by men unused to the trade, ends generally in loss of the first capital, and though it might suit many to sustain a loss in order to make a profit in another way, we cannot expect a gentleman engaged in the business to go straight on to such loss, which he has no chance of recouping himself indirectly. Pay the old company off, get a new company, settle the business of the company in the board room of the company, as other business is done, and let the Board of Trade attend to matters pertaining to it. I wish to see the hotel built, but I would remind the shareholders of the Canada Western who attended the Board of Trade meeting that there is a feeling in such matters that they should wash their dirty linen at home.

CIVIS.

AN ODIOUS PARADE.

TO THE EDITOR:—During devotions carried on at the pro-Cathedral, on View street, on the Sabbath, that street is apparently a premeditated line of march by this pretendingly pious Salvation Army for the sole purpose of disturbing the congregation assembled there. They never go that street on week days, which proves their unchristian, and, I believe, unlawful intentions. Only a few weeks ago this pious Army came quite near to this church, which has its entrance on View street. On the Sabbath Day, with a brass band, bass and kettle drums, assisted by their captain, who plays that ancient, soul-thrilling musical piece, viz., the tin whistle, which may have charmed the hearts of a soft headed crew, and encouraged the other fewwho acknowledge their reformation by taking part in their street parades, which none of them do for self-interest, by the way, getting employment from good Christian people who are so foolish as to believe that they are really sincere, and as they say themselves saved. If they are not I hope they will be in good time. But I don't think that they should be allowed to exhibit their antic ways at the expense of annoyance to others. If I had authority I would confine them to barracks, where none they give their place of worship only Sunday last, again they came to this same church. They had no band but, oh! my! they were singing as the only can, not to be noticed any difference between the voices of the women and men. They were singing to the tune of "Old Black Joe," "Nellie Gray" and "Old Jim Crow." This kind of street music surely must excite devotion which many, as well as I, cannot understand, nor I believe themselves.

However, with regard to their practices, I have no more to say, only that it is a noticeable fact that they don't parade by any other church in this city during Divine service. I am not posted on the existing laws relating to this matter; but I hope this poor effort of mine will have the desired effect. I don't approve of disturbance to any denomination assembled to worship their God, even the Salvation Army.

M. I. B. V.

Mount Tolmie Park. Look it up.

A Daring Escape.

PITTSBURG, Pa., Sept. 16.—Frederick C. Fitzsimmons, murderer of Detective Gilkinson, and a desperate thief, escaped from the county jail yesterday. His escape is the most daring ever effected in this part of the country. He was incarcerated in a cell in murderers' row, west tier, awaiting trial for murder, which was to begin next week. Fitzsimmons had already been convicted on several charges of robbery. The prisoner gained the jail corridor by sawing the bars of his cell door. He then scaled the walls, reaching the top of the building, where he used a saw on the bars of a window overlooking the warden's residence. By a most desperate leap he gained the roof of the warden's residence, and thence descended to the jail court by means of a lightning rod. He then scaled the high wall by means of a rope that could have been secured only by means of outside assistance. From the top of the jail wall he jumped to the roof of the shed on the old avenue side of the jail. His escape was not discovered until 6 o'clock in the morning.

Lynched by a Mob.

SOMERSES, Ky., Sept. 16.—Gilland brothers, James H. and Josiah, were lynched this morning by a mob for the murder of Sheriff McCargue, of Pulaski county, last Saturday. The mob is supposed to have come mostly from Whitley and Laurel counties. McCargue was raised in Laurel county, and had many friends in that section.

Her Face Her Fortune.

Is commonly said of famous beauties. She who uses with artistic taste Wisdom's Famous Robertine has fortune in the possessing of a complexion to which nothing but the blush of the rose or the freshness of the lily can be compared. This preparation is just what it is claimed to be—the most delightful toilet article and only perfect beautifier known. Read the testimonials from famous artists, celebrated chemists and eminent physicians. D. E. Campbell, agent.

Sent to Prison.

PHILADELPHIA, Sept. 16.—Francis W., president, and Henry R. Kennedy, cashier, of the defunct Spring Garden National Bank, convicted recently for wrecking that institution, were sentenced by Judge Butler to ten years each in the Eastern penitentiary.

Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is heredited and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all disease of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. In its preparation, its medicinal merit, and the wonderful cures it accomplishes Hood's Sarsaparilla is **Peculiar to Itself.** Thousands testify to its success, and the best advertising Hood's Sarsaparilla receives is the hearty endorsement of its army of friends. Every testimonial we publish, and every statement we make on behalf of Hood's Sarsaparilla may be relied upon as strictly true in every respect.

If you need a good blood purifier or building up medicine, be sure to take Hood's Sarsaparilla. Further information and statements of cures sent free to all who address us as below.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

COAL

The New Vancouver Coal Mining & Land Co., Ltd.
(FORMERLY THE VANCOUVER COAL CO.),
ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes.)
THE SOUTH FIELD COAL (Steam Fuel).
THE NEW WELLINGTON COAL
House and Steam Coal are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas Coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used on all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

IMPORTANT NOTICE.

TO OUR PATRONS—The Victoria Electric Company purpose immediately entering upon an extension of their works by the erection of a new and commodious plant house and plant of large capacity, capable of accommodating the ever-increasing demand.

The new station will be located on Constance street, where, aided by superior facilities for the production of Light, Power, etc., combined with large output, they will be able to offer even better service, at a very materially reduced cost to consumers.

Pending the completion of these works, every effort will be made to continue the present reliable service, and to deal with patrons fairly. Any believing, however, that they have a grievance are invited to have the difficulty adjusted by presentation to the undersigned

LOUIS REDON,
President.
